To whom it may concern,

I have had the pleasure working with Drew Sparkman for a year. In that time his experience, knowledge and professional attitude has helped me succeed in my first foreign teaching experience.

Drew has always been willing to give of his time and expertise in any problem that arose, and his knowledge of the students has helped me to integrate effective teaching strategies.

Knowing Drew and his work ethic inspires the teaching team and he has built the back bone of the school. I know wherever he goes he will be a valuable asset due to his diligent behaviour to his work and his giving attitude to his colleagues.

The students at the school look up to him as a teacher and a leader as he has provided them with guidance, kindness and respect.

Working with Drew has been a valuable experience and I am sure that with his qualities he will succeed in any job he finds himself in.

With Kind Regards,

Nicholas Horvath
